

SUNDIS ABDULAZEEZ

MICROBIOLOGIST

0750 702 1997

sundisabdulazeez@gmail.com

Duhok, Kurdistan, Iraq

EDUCATION

Bachelor in Biology
University of Duhok
College of Science
2012-2016

Master degree in Microbiology
University of Duhok
College of Science
2023-2025

PhD student in Mosul University

Pedagogy certificate from
University of Duhok

LANGUAGE

Kurdish

English

Arabic

Turkish

SKILLS

- Microsoft Word
- Microsoft Excell
- Microsoft Powerpoint

EXPERIENCE

PUBLIC CENTRAL LABORATORY IN DUHOK 2016- 2019

Three years of experience in central laboratory of duhok as volunteer in:

- Phlebotomy
- Serology
- Virology
- Hematology
- Histopathology (1 year)

AMR LAB 2017 – Present

- Over 9 years of experience in AMR LAB main branch
- Over 4 years of full time working in AMR LAB

Phlebotomy

I have extensive experience in phlebotomy, proficiently performing blood draws from both veins and arteries in adult and newborns. My expertise ensures minimal discomfort and high accuracy in specimen collection . Additionally, I have trained numerous staff members in proper blood draw techniques, sharing my knowledge to improve overall competency in the team.

MICROBIOLOGY

I have extensive experience working in the microbiology department, where I have demonstrated proficiency in various diagnostic techniques and tests which include :

Microscopic examination

- GUE
- GSE

Rapid tests

- Fecal Helicobacter pylori
- Stool for occult blood
- Drug of abuse
- Rota virus and Adeno virus
- Clostridium difficile toxin A and B

Culture diagnosis

- Media preparation
- Diagnosis of all type of cultures by VITEK device
- Gram stain
- Acid fast bacilli stain

Serology

- Widal agglutination test (WAT)
- Brucella agglutination test (BAT)
- Rapid plasma reagin (RPR)

Semenal Fluid AnalysisL

- Semen fluid analysis by SQA vision device
- Intrauterine insemination (IUI)
- Sperm DNA fragmentation

OTHERS

Scraping for fungus

Working on arterial blood gas analysis device (ABG)

HEMATOLOGY

- Working on CBC machine
- ESR
- Blood group
- Working on Stago machine for PT, PTT, and Fibrinogen tests

I m munolog y

- Alegria device
- Bioflash
- Virclia

Rand Technical Institute 2025-2026

I have experience working at Brent Rand technical institute, where I have taught Microbiology to students in the Pharmacy, Dental Industry, and Nursing departments. My responsibilities included delivering theoretical and practical microbiology lessons, explaining laboratory techniques, specimen handling, culture methods, bacterial identification, and basic microbiological diagnostic procedures. I have also been involved in training and supervising students during practical laboratory sessions.
